

# The Summer of the Sun

Marble Sounds

Our plan is bound to succeed  
We will conquer the heat  
We're living without limits  
Driving down south  
They won't ever track us down

You know an offer's a lie  
When conditions apply  
We hang on to our freedom  
Though seasons will change  
They won't ever bring us down

And when the air's too warm we're hiding hiding  
And when the drinking's done we're diving diving  
And when the camera's on we're smiling smiling  
They said this day would come  
Here is the summer of the sun

Here's a toast to my friends  
To the adventures at hand  
To the endless variations  
On everyday life  
Cause nothing ever happens twice

And when the air's too warm we're hiding hiding  
And when the drinking's done we're diving diving  
And when the camera's on we're smiling smiling  
They said this day would come  
Here is the summer of the sun

And when the air's too warm we're hiding hiding  
And when the drinking's done we're diving diving  
And when the camera's on we're smiling smiling  
They said this day would come  
Here is the summer of the sun  
Here is the summer of the sun  
Here is the summer of the sun  
Here is the summer of the sun

Here is the summer of the sun
