I Reach for You

Marc Anthony

Baby love
Sometimes it's hard for me to tell you what I'm thinking of
So I try to find a way that I can show you love
What you mean to me

It's not enough to give you everything that you were ever dream
ing of
I could never find a way that I could pay you love
For all the things you do
'Cause when my life gets crazy
The only one who comforts me is you

R: When I'm feeling all alone
   When I'm searching for someone I can run to
   I reach for you
   When I need a hand to hold
   Or a place where I can feel what love can do
   I reach for you

Needing you
Is something that I've really gotten used to
I can't imagine being here with no one else
No one but you

What I found
Is it dosen't get much better than when you're around
Having you is all I really need when I get down
You pull me through

'Cause when my life
Gets crazy
The only one who comforts me is you

R:
