

# I Wanna Be Free

Marc Anthony

All my life  
I've followed signs  
On many a road

Tried to find  
What was right  
And do what I'm told

But sometimes  
You cross the line  
And never can go back home

I've been here  
And I've been there  
Always on the go

Looking for  
Something more  
To call my own

Up to now  
I have found  
That life as a whole was cold

'Cause I've never belonged

R: I wanna be free  
And live without warning  
I wanna finally see  
What it's like on the other side  
I wanna be free  
'Cause a new day is dawning  
I wanna be me  
I wanna show the world I'm alive

Who's to say  
I need change  
And I am not what I'm not

Look at me  
And what you see  
Has been through alot

Now it's time  
For me to find  
What love's really all about  
And all that I've lived without

R:
