

# Tragedy

Marc Anthony

Time after time  
You turn on what I thought was good  
And leave me behind  
You should have loved me like you know that you could

But oh- no this won't be no hard goodbye  
Oh- no you can't hurt me this time

R: She doesn't love- On my lord  
It doesn't mean it's a tragedy, tragedy  
She doesn't mean it - say that she don't  
This dosen't have to be a tragedy, tragedy

All of my life  
I was searching for the love that we had  
Without knowing why  
You turned around and treat me so bad

But oh- no I'll just hold my tears inside  
oh- no maybe you'll find another lover who will cry

R:

On the phone for hours  
But we had very little conversation  
We spoke of words with no meaning  
We spoke of love with no end  
I'll tell myself agian

R:
