

# Let Me Do It Over

Marc Broussard

I see you lookin' out the front door  
Can't get your mind to settle down  
I know you're wonderin' what I'm here for  
You think that I won't stick around  
I know it's hard to not remember  
All the times that I pushed you to the end of the line

So let me do it over baby  
Let me do it over again  
And I say the words I never said  
Be the man I should've been  
There's no guarantees that we won't be  
Right back where we are tonight  
So let me do it over and I'll get it right

Now it's no secret I'm not perfect  
We both know where I've been wrong  
Leaving you was never worth it  
Cause I never last without you for too long  
Baby I know it's hard to not remember  
But there's no where else I'd rather be  
But right here

So let me do it over baby  
Let me do it over again  
And I say the words I never said  
Be the man I should've been  
There's no guarantees that we won't be  
Right back where we are tonight  
So let me do it over and I'll get it right

I tried my best to live without you  
Everytime I walked away I got turned around  
You'd think this boy would learn that it ain't no use  
To run from the one you love  
So let me do it over

Let me do it over again  
And I say the words I never said  
Be the man I should've been  
There's no guarantees that we won't be  
Right back where we are tonight  
So let me do it over  
Let me do it over  
Baby, let me do it over  
And I'll get it right
