

Let The Music Get Down In Your Soul

Marc Broussard

When your life gets to complicated
Gotta let the music, music, music
Get Down in your soul
Forget all your frustrations
And let the music music music
Get down in your soul
Get on up, up, My brother,
And let the music, get down in your soul
Get on up, up yeah my sister
And let the music get down in your soul
Everyday ain't gonna be sunny No
Gotta let the music, music, music
Get down in your soul
Life ain't filled with milk and honey No
Gotta let the music music music
Get down in your soul
Get on up, yeah my brother
And let the music get down in your soul
Get on up, yeah my sister
And let the music get down in your soul
Things ain't as bad as they may seem
But you can't find reality living in a dream
The strength you need, you had it all the time
You'll find the answers in the back of your mind
Get on up, up yeah my brother up
And let the music get down in your soul
Get on up, up yeah my sister, up
And let the music get down in your soul
Things ain't as bad as they may seem
But you can't find reality living in a dream
The strength you need, you had it all the time
You'll find the answer, in the back of your mind
Get on up, up yeah my brother up
And let the music get down in your soul
Get on up, up yeah my sister up
and let the music get down in your soul
Forget all you frustrations
come on come on come on
And let the music music music
Get down in your soul
