

## Save Me

Marc Broussard

You know the summer time is gone now  
All the leaves are on the ground  
Everything is turning  
Stuck in a rut

You know another year is over  
Ad another candle is on the cake  
I ain't getting any younger no, no, no  
Stuck in a rut  
And only you could get me out of this place

Save me  
Give me what I need  
I know you can break these chains  
And set me free  
Save me  
Give me what I need  
I know you can break these chains  
And set me free  
Set me free

You know the wintertime is here now  
And my poor heart is freezing up  
Keep, keep the fire burning, baby  
Stuck in a rut  
And only you can melt the pain away

Wishing you were here  
'Cause I can't hold on calm me down when I lie awake  
All night long

You know the summer time is gone now  
And my poor heart is freezing up
