

# Dig Down Deep

Marc Cohn

Baby let's go below the surface  
See what we can find  
There's no reason to be nervous  
'Cause it happens all the time

I don't wanna go up to the mountain  
I don't need to go down to the sea  
Gonna sit right here 'till we unravel  
The mystery

While the lights of the city are shinin' below  
Gonna hold onto you girl and never let go  
While everyone else is just walking around in their sleep  
Baby let's dig down, dig down deep  
I wanna dig down deep

And I don't wanna wait until' tomorrow  
'Cause the fortune said that the time is now  
It's time to find out what we're doin'  
What we're doin' anyhow

Yeah let's go out in the moonlight  
And walk for awhile  
Maybe stay up all night and we could  
Talk for awhile

Baby kick off your shoes  
'Cause you've got nothin' to lose but your sleep  
Baby let's dig down, dig down deep  
I wanna dig down deep  
'Cause you, dig down deep

It's an open invitation  
So baby don't you cry  
It's a life long celebration  
And I think we're right on time

It's a feelin' in your heart  
And a lump in the throat  
It's a strange and lovely ride  
Wanna dig down deep inside

While the lights of the city are shinin' below  
Gonna hold onto you girl and never let go  
While everyone else is just walking around in their sleep  
Baby let's dig down, dig down deep  
I wanna dig down deep  
Could you dig down deep? I wanna dig down deep
