

## Isn't That So

Marc Cohn

Did he know what he was doing  
Putting eyes into my head  
If he didn't want me watching women  
He should've left my eyeballs dead

Isn't that so  
Isn't that so  
You've got to go where your heart says go  
Isn't that so

Did he know what he was doing  
When he divided high and low  
You've got to bury the seeds in the dirt my friend  
If you want the thing to grow

Isn't that so  
Isn't that so  
You've got to go where your heart says go  
Isn't that so

Well it's the line of the least resistance  
That leads me on....

Did he know what he was doing  
When he made that perfect vine  
His own son got the reputation  
of turning water into wine

Isn't that so  
Isn't that so  
You've got to go where your heart says go  
Isn't that so

You've got to go where your heart says go  
Isn't that so
