

# Nowhere Fast

Marc Cohn

When I was a boy  
I went running off to school  
Went home every evening  
Like there was nothing else to do

One night I looked out my window  
And while the moon was racing past  
I sat up there and wondered  
Am I goin' nowhere fast?

I see the telephone post  
I watch a sparrow fly  
And all the lonely souls know  
But I just drive on by

And I think of all the dreams there  
That never came to pass  
And I can't help but wonder  
Hey are we goin' nowhere fast?  
Nowhere fast

And I don't have an answer  
And I don't have a clue  
Why people act so crazy  
But I guess I'm crazy too  
A little bit crazy too

I watch my baby sleeping  
It's been a long hard day  
And she looks so peaceful  
Lost in the faraway

Sometimes I just wanna hold her  
And make one moment last  
But all I do is wonder  
Hey are we goin' nowhere fast?  
Nowhere fast

Nowhere  
Are we goin' nowhere fast?
