

Heroes Ride Alone

Marc Terenzi

ittin' on a distant highway long we're way from home.
Every human has a story, every dream has its call...
You used to make me think I was special,
you made me see things right.
We thought we'd live forever riding through the night.
I said I'd love you forever
and I just think you should know-
every story has its ending even if it doesn't show.
The story says that I must go.

And you feel much better
'cause the sun keeps rising
but I'm a long gone.
Nothing but a shadow to vanish in the dark...
Heroes ride alone...

They say my name is a trouble
girl you're better off without.
I'm like the roller coaster- I'm gonna way you down
'cause I can ride on forever
on the streets that none's seen
so keep me like a fading picture from an old magazine.
I said I'd love you forever
and I just think you should know-
every story has its ending even if it doesn't show.
The story says that I must go.

And you feel much better
'cause the stars keeps shining
but I'm a long gone.
Nothing but a shadow to vanish in the dark...
Heroes ride alone...
