

(M. Detroit)  
Pack up the home and family  
The only way to kill the beast  
Bury the pain before it grows too late  
No dream left to follow  
Back to the hustle and the grind  
Back for the quality of life  
There's hope beyond the streets of gold  
But not for the rainbow  
Detroit  
I can hear your motor humming  
Don't you know I'm coming home to you  
Detroit  
Where the simple things are free  
And everything you need  
Is there for you, there for you  
This town aims at you like a gun  
She never misses anyone  
She'll chew you up and spit you out  
The rest you can borrow  
Detroit  
I can hear your motor humming  
Don't you know I'm coming home to you  
Detroit  
Where a man can be a man  
All you need to understand  
Is there for you, there for you  
You've got every indication  
Things are going to be fine  
The industry is like a hum  
That somehow soothes your mind  
Let's talk about the wisdom  
Let's talk about the charm  
That somehow lets you know  
You're better off with who you are  
Who you are  
Detroit  
I can hear your motor humming  
Don't you know I'm coming home to you  
Detroit  
Where the simple things are free  
And everything you need  
Is there for you, there for you  
Detroit  
Where a man can be a man  
All you need to understand  
Is there for you, there for you  
Detroit....  
Detroit....
