

# Power

Marco Mengoni

You wanna punish me  
'cause I can't give you what you need  
You asked for honesty  
Please, now you are mad at me  
You start a fire and wonder why you get burn  
Light a match and someone's gonna get hurt

I know you're not the same that you pretend to be  
Tonight we'll set the stage play out your fantasy  
And we can make a movie scene  
Come on, come on, let's see  
Who's got the power

So paint me like a villain if you want to  
You can play the victim if you need to  
I don't think you got it like you used to  
Come on, come on, come on  
I got the power, my love

So paint me like a villain if you want to  
You can play the victim if you need to  
I don't think you got it like you used to  
Come on, come on, come on  
I got the power

You know me, I'm impatient with the drama babe  
You're gonna wear me out, fast make me go away  
We're gonna crush and burn soon, so baby come on  
We're gonna crush and burn, crush and burn, crush and burn yeah

So paint me like a villain if you want to  
You can play the victim if you need to  
I don't think you got it like you used to  
Come on, come on, come on  
I got the power, my love

So paint me like a villain if you want to  
You can play the victim if you need to  
I don't think you got it like you used to  
Come on, come on, come on  
I got the power

You push me to the edge  
Your weakness is my strength  
I won't do it again  
You said, you said, you said

So paint me like a villain if you want to  
You can play the victim if you need to  
I don't think you got it like you used to  
Come on, come on, come on  
I got the power, my love

So paint me like a villain if you want to  
You can play the victim if you need to  
I don't think you got it like you used to  
Come on, come on, come on

I got the power
