Searchin' lookin' at the moon,
I believe and never lie.
Know my love, and know you are,
everything within my life.

I know your photograph,
I know your windy stare,
I know you wanna if I call
I know you want to laugh.
Go on a sing cry man,
I know you wanna let it go.

So I do you, know you
everyway an' anytime I can.
Although you feel lower everytime
a lover true I am.

I just wanna stay,
I just want you, stay,
show me how to play, how to play this game.

Doesn't matter where you are,
there's no place that is too far.
I will love until I rule,
in the kingdom of my heart.

I know your photograph,
I know your windy stare,
I know you wanna if I call
I know you want to laugh.
Go on a sing cry man,
I know you wanna let it go.

So I do you, know you
everyway an' anytime I can.
Although you feel lower everytime
a lover true I am.

I just wanna stay,
I just want you, stay,
show me how to play, how to play this game.

Only love remains, only love remains.
After all the pain, only love will remain.

Only love... Only love
only love can play this game.
I'll be love, I will always remain.
