## C About Me

## **Marcos Hernandez**

I haven't seen you in forever Oh, you haven't changed a bit You didn't think that I would remember How could I forget

We sang Bobby McGhee
On the hood of my car
Made a wish on every star
In that clear September sky

One bottle of wine and two Dixie cups 3 A.M. I fell in love For the first time in my life Oh that's something that just don't happen twice

To this day, I still taste that first kiss How I prayed it wouldn't end In a way, seeing you like this I guess, it never really did

We sang Bobby McGhee
On the hood of my car
Made a wish on every star
In that clear September sky

One bottle of wine and two Dixie cups 3 A.M. I fell in love For the first time in my life That's something that just don't happen twice

One bottle of wine and two Dixie cups
3 A.M. I fell in love
For the first time in my life
Oh that's something, baby that's something
Oh that's something that just don't happen twice

Oh yeah, we sang Bobby McGhee
On the hood of my car
Made a wish on every star
One bottle of wine and two Dixie cups
Yeah, we fell in love
