Marcos Hernandez

Your kiss, your smile, your mind You're sunlight in my eyes I miss your breath on my neck When we whisper in the night Didn't wanna want you, didn't wanna need you so bad Didn't wanna wake up and find that I was falling so fast Didn't wanna need you, didn't wanna need anyone Now look what you've done Now I can't go on without you I'm naked, I can't fake it I'm not that strong without you I never thought I could love you the way I do, yeah Way I do Your touch, your skin Can't believe the way you let me in Don't rush tonight I need you like the ocean needs the tide Didn't wanna want you, didn't wanna need you so bad Didn't wanna wake up and find that I was falling so fast Didn't wanna need you, didn't wanna need anyone Now look what you've done Now I can't go on without you I'm naked, I can't fake it I'm not that strong without you Never thought I could love you the way I do I always thought I would stand on my own Climb a mountain top all alone Relying, depending on no one Now look at what you've done, I think I love you Now I can't go on without you I'm naked, I can't fake it Now I'm not that strong without you Never thought I could love you the way I do Never thought I could love you, never thought I could need you Never thought I could want you, baby, the way I do Never thought I could love you, never thought I could need you

Never thought I could want you the way I do

I love you, I need you, I want you the way I do I love you, I need you, I want you the way I do
