

Star Baby

Marcy Playground

Say what you will
You're my star baby

When you coming down
When you coming down
Come on down
When you coming down
When you coming down
Come on down

Star gazer...
Dream maker, I'm in love with you
I spin the bottle...
And every time it's landing right on you

So say what you will,
Inside baby

When you coming down
When you coming down
Come on down
When you coming down
When you coming down
Come on down

I've been waiting...
Waiting patiently every night
Just to see you...
Just to see your perfect shining light

My heart is like a photograph, [album]
Of all the good times and bad, [and I've had some]
Where I miss this girl, and I miss that girl
I don't miss THAT girl... but sometimes I miss this girl
But you, you're my star baby
You're my star baby

And when you coming down
When you coming down
Come on down
When you coming down
When you coming down
Come on down
Aw, when you coming down
When you coming down
Come on down
