

# Dark Endless

Marduk

Darkness is complete  
Oh so it burns  
Dark endless forests  
Has poisoned my blood

Overshadowed by ancient evil  
My bones are black from sadness  
My soul is cold as ice  
I will dwell in hell

Dark endless forests  
From another age  
Darkness it shall be  
Not a sign of light

No heaven so bright  
But hell burned a light  
Souls screaming out loud  
Let us fucking die

Dark endless forests  
From another age  
Darkness it shall be  
Not a sign of light

Blackened stars fall from the sky  
To rule again in satan's empire

Father - I'm your seed  
Forever you I will feed
