Dark Endless

Marduk

Darkness is complete
Oh so it burns
Dark endless forests
Has poisoned my blood

Overshadowed by ancient evil My bones are black from sadness My soul is cold as ice I will dwell in hell

Dark endless forests From another age Darkness it shall be Not a sign of light

No heaven so bright
But hell burned a light
Souls screaming out loud
Let us fucking die

Dark endless forests From another age Darkness it shall be Not a sign of light

Blackened stars fall from the sky To rule again in satan's empire

Father - I'm your seed Forever you I will feed
