

Let them rain on blood-soaked muddy fields  
Let them sing their death-tone alarm  
Let them fall upon the streets of no hope  
Let them be the first fiddle in the macabre dance of death

Nebelwerfer - oh, smoke mortar  
Brust forth ! let thy kingdom come  
Nebelwerfer - artillery bliss  
Break out ! let thy will be done

The spark and the flame  
The flame and the spark  
The shrill screams of Mimi  
In the midst of the night  
Death comes as flames from above

The smoke and the gas  
The gas and the smoke  
The high means of Minnie  
In the midst of the night  
The barrels thunder  
The ground is shaking  
Death comes as hail of the gods

Let them thunder on freshly blackened lands  
Let them howl throughout this night of raptness  
Let them fall upon the town square of pain  
Let them be the first fiddle in this macabre dance of death

Nebelwerfer - oh, siw barreled love song  
Do-gerät - hallowed be thy name !  
Nebelwerfer - reveal his glory  
An earth as in heaven !

The spark and the flame  
The flame and the spark  
The shrill screams of Mimi  
In the midst of the night - death comes as flames from above

The smoke and the gas  
The gas and the smoke  
The high means of Minnie  
In the midst of the night  
The barrels thunder  
The ground is shaking  
Death comes as hail of the gods
