

## Those of the Unlight

Marduk

The nine

Blasting through the earth as a storm  
Spreading their dark coldness  
Evolved into creatures that existed at the edge  
At the edge of this world and the realm of the shadows  
Resisting death, yet unable to die  
Magically clung to life

Forever dying but never dead  
The nine - Those of the unlight

Frozen on the very brink's of death  
Enslaved by the dark lord

Forever dying but never dead  
The nine - Those of the unlight

A shadow of the great evil that prolonged his existence  
A shadow creature - forever dying but never dead
