

# Just Come In

Margaret Becker

What do I see  
You draggin up here  
Is that for your atoning?  
I know you're sorry  
I've seen your tears  
You don't have to show Me  
What makes you think you must  
Make that go away  
I forgot  
When I forgave  
I wish you would

Chorus  
Just come in  
Just leave that right there  
Love does not care  
Just come in  
Lay your heart right here  
You should never fear

You think you've crossed  
Some sacred line  
And now I will ignore you  
If you look up  
You will find  
My heart is still toward you  
Look at the sky  
The east to the west  
That's where I threw this  
When you first confessed  
Let it go now

repeat chorus

I will forgive you  
No matter what you've done  
No matter how many times  
You turn and run  
I love you  
I wish you'd come

repeat chorus
