

# Talk About Love

Margaret Becker

You and me  
We're not alike  
You like to walk I ride my bike  
You like shoes  
I like bare feet  
But that should never come between you and me  
Seems there are so many things  
On which we disagree  
So why don't we just concentrate  
On what we know we need  
Let's talk about love

I need love, love, love, love  
That doesn't let me down  
The kind of love that's gentle  
And always sticks around  
You need love, love, love, love  
The kind of love that's true  
The kind of love that's faithful  
That's what I've got for you  
Let's talk about love

You and me  
We've got it wrong  
We're fighting over stuff that's here and gone  
There's so much  
We both could share  
Love for one another, that's my prayer  
'Cause you don't need another finger  
Pointing out the cracks  
And I don't need another tongue  
Shooting flames behind my back  
Let's talk about love

I need love, love love, love  
That doesn't let me down  
The kind of love that's gentle  
It always sticks around  
You need love, love, love, love  
The kind of love that's true  
The kind that makes you happy  
That's what I've got for you  
Let's talk about love

You and I have got to try  
To live this command  
Love your neighbor as yourself  
No matter where he stands  
If only we could do that  
Then everyone would see  
The kind of love that Jesus has  
Can conquer anything

Let's talk about love
