

True Devotion

Margaret Becker

The scenery keeps changing
From day to day
But the road is still the same
Deep inside of me
I hear Your voice
Whispering the way
What is life if
Not to lead me deeper into You?
'Cause it doesn't matter where I am
Or where I've come from
Isn't it all about
Who I will become?
Living true devotion, true to You
That's all that I will need
Giving true devotion, true to You
I want it more than anything
You know that I'm not trying to rule the world
It's enough to keep myself in line
I'm just praying that my journey
Will leave me more
Merciful and kind
What is life if
Not the fire that purifies a heart?
'Cause I know it's not about how fast
Or strong I step
Isn't it all about
Faithfulness
Living true devotion, true to You
That's all that I will need
Giving true devotion, true to You
I want it more than anything
True devotion, true to You
That's all that I will need
Giving true devotion, true to You
I want it more than anything
True devotion, that's all anyone could want
Living true devotion, true to You
Giving true devotion, true to You
I want it more than anything
Living true devotion, true to You
That's all that I will need
Giving true devotion, true to You
I want it more, I want it more, I want it more than anything
That's all that I will need
I want it more, I want it more, I want it more than anything
True devotion
