

As Good as You

Margaret

My history marked on my skin
Retrace every memory
Pictures of where I've been
Choking underneath my sleeves
I can't stay frozen to something
That I am not
So don't change my shapes
Cuz' baby I am all I got

You're a whisper and I'm a shout
I am a statement and you're a doubt
From your window I might seem small
But from a different view
I'm as good as you
You're a lightclub and I'm a torch
You are the backbeat I'm four on the floor
In your headphones I might sound wrong
But in a different tune
I'm as good as you

You can blow my candle out
But I got more matches to spare
So cover my sky with your clouds
Got an umbrella
Yeah, I don't care
My edges will not fit in inside your box
So don't change my shapes
Cuz' baby i am all i got

You're a whisper and I'm a shout
I am a statement and you're a doubt
From your window I might seem small
But from a different view
I'm as good as you
You're a lightclub and I'm a torch
You are the backbeat I'm four on the floor
In your headphones I might sound wrong
But in a different tune
I'm as good as you
