

# Glorious

Margaret

It's been a while, I must've a lied  
'Cause it's all been happening way too fast  
When the curtain falls I'm all alone  
Gotta find my set back, gotta make it last

Runnin' from the enemy  
Inside of me  
Takin' me down  
But I won't go silently  
That ain't me, no

And it's makin' me glorious  
And it's makin' me glorious  
Yeah, it's makin' me glorious  
Yeah, it's makin' me glorious

Too many words, still nothin' learned  
But do I keep on listening till sirens gone?  
'Cause we're all in doubt, it's all and out  
But I'm standin' still after a million falls

Runnin' from the enemy  
Inside of me  
Takin' me down  
But I won't go silently  
That ain't me, no

And it's makin' me glorious  
And it's makin' me glorious  
Yeah, it's makin' me glorious  
Yeah, it's makin' me glorious

I might be, I might be, I might be, I might be stronger  
I might be, I might be, I might be, I might be louder  
I might be, I might be, I might be, I think I found it  
I think I found it

And it's makin' me glorious  
Yeah, it's makin' me glorious

I will be stronger  
I will be louder  
I won't be the founder

And it's makin' me glorious  
And it's makin' me glorious  
Yeah, it's makin' me glorious  
Yeah, it's makin' me glorious

I might be, I might be, I might be, I might be stronger  
I might be, I might be, I might be, I might be louder  
I might be, I might be, I might be, I think I found it  
I think I found it

And it's makin' me glorious  
And it's makin' me glorious  
Yeah, it's makin' me glorious

Yeah, it's makin' me glorious
