

Start a Fire

Margaret

What is to win?
Temperature is running high
Let me know
I got a tiger's eye
You'd better moving for the prize
You're gotta make some noise
Let me hear you voice
Let the passions and dreams make it right
And we can start a fire
Start a fire now

We gonna start a fire
We gonna start a fire

Crazy night
Electricity in the air
We the was that ... bellowed live
We got wild everywhere
Come on make some noise
Let me hear you voice
We can fill it in the air
And we start a fire
Start a fire now

No time to has a day
tomorrow is just too late
we come the party drum
and made it loud

So raise your hands
Tonight we take a chance
We're gonna start a fire
We're gonna start a fire
So won't you
Raise your hands
Let's fight and make a gem
We're gonna start a fire
We're gonna start a fire

We will not fall
We want a ohh
We want start a fire

So raise your hands
Tonight we take a chance
We're gonna start a fire
We're gonna start a fire
So won't you
Raise your hands
Let's fight and make a gem
We're gonna start a fire
We're gonna start a fire

We will not fall
We want a ohh
We gonna start a fire
