

What You Do

Margaret

I, I been looking for a while
Been searching for a sign
And trying to ignite
I, I'm chasing high and low
Not knowing where to go
This could be a bumpy ride

When you fail all away
What you do? What you do?
Fade away, hate to say
So what you do? What you do?
Rasing up, louder louder
Turn it up higher, higher
When you fade all away
What you do? What you do?
What you do? What you do?
What you do? What you do?
What you do? What you do?

You, you don't wanna be alone
Hiding in a safety zone
Tell me what is on your mind, yeah
You wear your head up in the clouds
Won't you hang on and be proud
So come on and light a spark

When you fail all away
What you do? What you do?
Fade away, hate to say
So what you do? What you do?
Rasing up, louder louder
Turn it up higher, higher
When you fade all away
What you do? What you do?
What you do? What you do?
What you do? What you do?
What you do? What you do?

Oh, look at me, look at me
Oh, I wanna be making dreams
If you want it, you take it
Look at me, lullaby singing
Oh, oh

When you fail all away
What you do? What you do?
Fade away, hate to say
So what you do? What you do?
Rasing up, louder louder
Turn it up higher, higher
When you fade all away
What you do? What you do?
What you do? What you do?
What you do? What you do?
What you do? What you do?
