

I'm Gonna Soothe You

Maria McKee

I've got a thing for you baby always have
Never knew how far my heart would take me
She's my friend but she treats you bad
Can't let that happen to such a decent man
If you let me in, let me stay a while
I'll do more than make you smile
Come to me child

I'm gonna soothe you
Hey baby
I know just what to do
My baby

Don't worry, I won't do you any harm
My touch is gentle, my body is warm
Lift your head, feel my cool hand on your face
Let me kiss your tears away
If you let me in, honey let me stay
Lay your head on my breast
I'll do the rest

I'm gonna soothe you
Hey baby
I know just what to do
My baby

Can you feel it
Comin' down like a trance
Forget your head remember how to dance
Can you feel it
Comin down like healin'
So deep, it just couldn't be a sin, now Baby

Walk on in, baby come on in
Make yourself at home in my arms

I'm gonna soothe you
Hey baby
I know just what to do
My baby
