

I'm Only Human

Maria Mena

Wish I could see it
Not only feel it
It's on the inside
It's on the inside

Wish I was sleeping
Then I'd be dreaming
Can't find a reason
For my body's treason.

I'm only human
I'm only human

My womb rests slanted
Took it for granted
And when a heart stops
The deafening shock

Wish I was bleeding
Then you could see it
But it's on the inside
It's on the inside

I'm only human
I'm only human
