

Shadow

Maria Mena

I wish you'd see it on my face
But I'm caught up in those long lost days
And how can I then make you see
When I don't even know me

Following my footsteps home
This time I'm walking alone
Trying hard to be someone
I don't even know

I feel like a shadow
Walking behind who you think I am
Just like my shadow
Wanting to see the sun again
I'm your shadow
And I'm lost
Just like my shadow

Thought I'd light me bright and new
But my candle burnt out long before you
Now I'm the one who's got to pay
I'm finding me a better day
