

Sleep To Dream

Maria Mena

You have it all
The ceiling cracks
And you fly
But I fall again
Please say goodbye
Take your love out of me
And don't ask me why
I'm not your friend
Trying to stand
But you bend me again
What's up with that
Takes more then this for me to take off my hat

but these set of floors
Between you and me
I sleep to dream
I sleep to dream

but these set of floors
Between you and me
I sleep to dream
I sleep to dream

So you kissed me now
This face doesn't seem so great after all
Please let me go
I need to hear myself think
I only hear the water flow
I'm not your friend
Trying to stand
But you bend me again
What's up with that
Takes more then this for me
To take off my hat

but these set of floors
Between you and me
I sleep to dream
I sleep to dream

but these set of floors
Between you and me
I sleep to dream
I sleep to dream

but these set of floors
Between you and me
I sleep to dream
I sleep to dream

I'm not your friend
Trying to stand
But you bend me again
What's up with that
Takes more then this
For me to take off my hat
Takes more then this

For me to take off my hat
Takes more then this
For me to take off my hat

but these set of floors
Between you and me
I sleep to dream
I sleep to dream
(3x)

Yea these set of floors
Between you and me...
