

When It Rains

Maria Mena

When it rains
Do you sleep through it?
Do you face the day?
Do i make you feel like your in the way?
And when it's sunny, do you stick around
When it shines
And i come by your house to close the blinds

And you, you change, cause i hardly ever see you when it rains
Could you please call me
Please and make my day

When it rains we get worried dear,
Think that we don't want you here
And under the blue sky your no longer safe,
Your no longer mine.
And you said you would come rain or shine

And you, you change, cause i hardly ever see you when it rains
Could you please call me
Please and make my day

When it rains
Do you sleep through it?
Do you face the day?
Do i make you feel like your in the way?
And when it's sunny, do you stick around
When it shines
And i come by your house to close the blinds

And you, you change, cause i hardly ever see you when it rains
Could you please call me
Please and make my day
