

It's Time

Maria Taylor

Love me... bad idea
Oh no, flashback
Whisper I barely hear
OK now, come back

Hold myself up for each let down
It aches, but it feels good
A mistake misunderstood

It's time
Can you feel it?
I'm making a change
There's a world I need to know
It's time. Can you feel it?
I'm making a change
I've learned to let it go

I don't know you but I want to now
Oh no, flashback
Careful, I'm barely here
OK now, come back

Hold myself up for each let down
It breaks, but it feels good
Seperate, I knew it would now

It's time
Can you feel it?
I'm making a change
There's a world I want to know
It's time
Can you feel it?
I'm making a change
I've learned to let you go
