

## Sum of Our Lives

Maria Taylor

Soft spoken spring  
Whispers graciously  
Thank you for a new beginning

A second chance on what we started  
Break from the broken hearted  
We're more than the sum of our lives

Cower at the face of regret  
I wanna be the ones who make it  
We're more than the sum of our lives  
Of our lives

I could let it be  
I could set us free  
But it's never that easy

Our names carved in the pavement  
All the marks we haven't made yet  
They're more than the sum of our lives

All that we anticipated  
What we already created  
It's more than the sum of our lives  
Of our lives

Constance of night  
Tireless sea  
Comes steady thankfully

A second chance on what we started  
Break from the broken hearted  
We're more than the sum of our lives

Cower at the face of regret  
I wanna be the ones who make it  
We're more than the sum of our lives  
Of our lives
