

Sum of Our Lives

Maria Taylor

Soft spoken spring
Whispers graciously
Thank you for a new beginning

A second chance on what we started
Break from the broken hearted
We're more than the sum of our lives

Cower at the face of regret
I wanna be the ones who make it
We're more than the sum of our lives
Of our lives

I could let it be
I could set us free
But it's never that easy

Our names carved in the pavement
All the marks we haven't made yet
They're more than the sum of our lives

All that we anticipated
What we already created
It's more than the sum of our lives
Of our lives

Constance of night
Tireless sea
Comes steady thankfully

A second chance on what we started
Break from the broken hearted
We're more than the sum of our lives

Cower at the face of regret
I wanna be the ones who make it
We're more than the sum of our lives
Of our lives
