

Inseparable

Mariah Carey

Call my phone
Baby call my phone
Baby call my phone
I be waitin' to hear your ring tone
Call my phone
Baby call my phone
Baby call my phone
I be waitin' to hear your ring tone

Lost without my other
Half thought can I live with out you
I don't want another
That's why I'm messed up about you

Can't even dream with out seeing you
Why should I even try to breathe
And everything is off, without you
Guess it's all my fault, ladies sing the blues

No one could deny it
We were flying like United
Thought we'd never be divided
Cause the love we had inside us was

[Chorus]
Inseparable
If you open this song
And you're searching for the moment when two hearts went wrong
Inseparable
And jealous was your work
Cause you swore you'd never ever give it up
Cause you'd thought that ya'll was
Inseparable
Thou we stay together
Always and forever
But now I see that no one is
Inseparable
Except for us
One of us just got to pick the phone up
Cause I know we're still
Inseparable

Got photos of us on my refrigerator
Videos on my phone, why can't I just erase them
The first text I ever got from you still saved in my inbox
And I read it like time after time

Boy I'm lost, can't you look, won't you please find me
I'm down to my last tick, come rescue me
See it's broken my heart, to the point where I don't need, to have a reason
now
Weak now cause I just ain't the same with out you
Boy I know we're

[Chorus]

It's been sixteen days since I held you tight

Balled up me and my pillow in the middle of the night
Boy I just wish you show up and make everything alright
So what you waiting for?
Cause both us have thought of we're

[Chorus]
