

Make It Look Good

Mariah Carey

Oh, make me wanna say
Yeah, yeah
Oh, boy you make me say

Something about you, makes every girl hot
Suffering without you
I just wanna taste of what you got
But my momma always told me not to play with
those players who play you till there's no more game left to be
played
Look at what you got me going through
Can't help myself because you
Make it look good
Say you, make it look good
Make it look good [?]
Why you not where you supposed to be
Acting like you don't notice me
Fantasizing bout the way you lick your lips fingertips on my hi
ps as we dip
Boy, you make it look good [?]

Sometimes, I need you but I feel so shy
Simply can't leave you
Cause them other girls are gonna try
Guess their mommas never told them no to play with those player
s who play you till there's no more game left to be played
Look at what you got me going through
Can't help myself because you
Make it look good
Make it look good
Say, oh oh, Make me look good
Make me look good
Why you not where you supposed to be
Acting like you don't notice me
Fantasizing bout the way you lick your lips fingertips on my hi
ps as we dip
Boy, you make it look good up in those
Boy, you make it look good [?]

And the next,
Every girl

Oh boy you make me say
Oh, oh,
My momma said don't play with the players
Never know what they gonna do
