My Saving Grace

Mariah Carey

I've still got a lot to learn But, at least I know where I can turn When I'm in my times of need Just as long (As I know all things are possible) Just as long as I believe

I've loved a lot, hurt a lot Been burned a lot in my life and times Spent precious years wrapped up in fear With no end in sight Until my saving grace shined on me Until my saving grace set me free

Giving me peace Giving me strength when I'd Almost lost it all Catching my every fall I still exist because you keep me safe I found my saving grace within you

Yes, I've been bruised Grew up confused Been destitute I've seen life from many sides Been stigmatized Been black and white Felt inferior inside Until my saving grace shined on me Until my saving grace set me free

Giving me peace Giving me strength when I'd Almost lost it all Catching my every fall I still exist because you keep me safe I found my saving grace within you

And the bountiful things that you do Lord thank you For delivering me

And giving me peace Giving me strength Giving me hope when I'd Almost lost it all Catching my every fall I still exist because you keep me safe Always my saving grace Pulls me through I found my saving grace within you

(Yes you are - you're my every, everything)
Within you...
(Only, only you)
Yes lord
(Only you)

My saving grace lord is You
