

# Ribbon

Mariah Carey

It's only been twenty good minutes since I kissed you  
Come back boo, I miss you  
Wish I had twenty million hours to caress you  
And undress you, to be continued  
Boy you, you don't know how it feels when you whisper in my ear  
Boy you, you give my body chills whenever you are near

And boy I got your lovin' on my mind  
I got your lovin' on my mind  
You got me wrapped up, packed up  
Ribbon with a bow on it  
I got your lovin' on my mind  
I got your lovin' on my mind  
You got me wrapped up, packed up  
Ribbon with a bow on it

Wrapped up, packed up  
Ribbon with a bow on it  
Wrapped up, packed up  
Ribbon with a bow on it

Sometimes we argue and we fight  
But they better know that that's my baby  
You might even think you cute  
But everybody knows that I'm his lady  
Every time you see us, we super fly  
So proud he's by my side  
He knows I'm ride or die  
You don't know how we roll  
Holla at your boy  
Boy you, you don't know how it feels when you whisper in my ear  
Boy you, you give my body chills whenever you are near

And boy I got your lovin' on my mind  
I got your lovin' on my mind  
You got me wrapped up, packed up  
Ribbon with a bow on it  
I got your lovin' on my mind  
I got your lovin' on my mind  
You got me wrapped up, packed up  
Ribbon with a bow on it

Wrapped up, packed up  
Ribbon with a bow on it  
Wrapped up, packed up  
Ribbon with a bow on it

Boy I'm all wrapped up in you  
You make me feel so unloose  
Tell me what I'm suppose to do  
When you're not around

Oh, baby (Yeah yeah yeah)  
Oh, baby (Yeah yeah yeah)  
Oh, baby (Yeah yeah yeah)  
Oh, baby (Yeah hey)  
Oh, boy you got me, you got me, you got me

And boy I got your lovin' on my mind  
I got your lovin' on my mind  
You got me wrapped up, packed up  
Ribbon with a bow on it  
I got your lovin' on my mind  
Wrapped up, packed up  
Ribbon with a bow on it

Got ribbon with a bow on it baby  
Boy you don't even know the things you do  
I could spend my whole life with you

I got your lovin' on my mind  
Baby I could spend my life with you  
It's been twenty good minutes since I kissed you  
Come back boo I miss you
