

# Underneath the Stars

Mariah Carey

One summer night  
We ran away for a while  
Laughing we hurried beneath the sky  
To an obscure place to hide  
That no one could find

And we drifted to another state of mind  
And imagined I was yours and you were mine  
As we lay upon the grass  
There in the dark  
Underneath the stars  
(Young love)  
Underneath the stars

Weak in the knees  
Wrapped in the warm gentle breeze  
So shy a bundle of butterflies  
Flush with heat of desire  
On a natural high

As we drifted to another place in time  
And the feeling was so heady and sublime  
As I lost my heart in you  
There in the dark  
Underneath the stars  
(Young love)

Beautiful and bitter sweetly  
You were fading into me  
And I was gently fading into you  
But the time went sailing by  
Reluctantly we said good-bye  
And left our secret place so far behind  
And I lay in bed all night and I was  
Drifting drifting drifting drifting

And I was yours  
And you were my own  
My own baby  
As we lay  
As we  
Lay underneath the star (baby, baby)
