

You Need Me

Mariah Carey

Wait a minute
Before you walk away
Let me finish
I've got a lot to say
Baby I'm not gonna tolerate
This game that you play
You'll regret it
If you desert me this way
When there's nobody
To dry your eyes
Suddenly you're gonna realize

[Chorus]
Don't you know
You need me
Don't you see
Believe me
Before you act so hastily
Baby remember you need me

Honey listen don't make a big mistake
I'm in your system
You really can't escape
When there's nobody
To hold your hand
Suddenly you're gonna understand

[Chorus:Repeat x2]

No one understands you like I do
After everything
That we've been through
Baby, you can turn around and leave
But I know that you'll keep
Coming right back to me

[Chorus:Repeat x2]
