All to Myself

Marianas Trench

I don't patronize, I realize I'm losing and this is my real life I'm half asleep and I'm wide awake This habit is always so hard to break

I don't wanna be the bad guy Been blaming myself and I think you know why I'm killing time and times killing you Every way that I do

Did you say please just follow me? I thought you wanted me 'cause I want you all to myself I can try and suck it up, I just can't suck it up Make me feel like someone else

Please just follow me I thought you wanted me 'cause I want you all to myself I can try and suck it up, I just can't suck it up Make me feel like someone else

I'm under the gun, you're like the only one I just can't decide what I'm running from This isn't what I wanted but I can't keep my filthy fucking mouth shut

It's not enough, it's never enough And I wish I could breathe without getting it stuck Can't focus it but I try it over and over again

Did you say please just follow me? I thought you wanted me 'cause I want you all to myself I can try and suck it up, I just can't suck it up Make me feel like someone else

Please just follow me I thought you wanted me 'cause I want you all to myself I can try and suck it up, I just can't suck it up Make me feel like someone else

Please just follow me I thought you wanted me 'cause I want you all to myself I can try and suck it up, I just can't suck it up Make me feel like

Did you say please just follow me? I thought you wanted me 'cause I can't stay with someone else I try and suck it up, I just keep fucking up I want you all to myself

Did you say please just follow me? I thought you wanted me 'cause I want you all to myself I can try and suck it up, I just can't suck it up Make me feel like someone else
