

Burning Up

Marianas Trench

Been dead as a disco
With a foot in grave
One thing that you missed though
Baby I'm new wave
Is it bad enough is it bad enough to call it off
Let's turn off the heat we gotta get back up
One minute you need me and the next we're stuck
Is it bad enough is it bad enough to call it off

Oh who are? What you do?
What you need? Whats the use?
Hold me now
I can't help but want you too

Don't say you don't miss me that much
Don't say I don't still make you blush
Cuz my ears are burning my ears are burning up
Sometimes you can't yell loud enough
Sometimes a whisper's just too much
My ears are burning my ears are burning up

Too hot to handle gotta like it rough
Too much of a scandal when the goings get tough
Is it bad is bad enough to call it off?
Just came into your window only gets the scene
Just want to crescendo and I kill a queen
Since when is that bad enough to call it off

Oh who are? What you do?
What you need? Whats the use?
Hold me now
I can't help but want you too

Don't say you don't miss me that much
Don't say I don't still make you blush
Cuz my ears are burning my ears are burning up
Sometimes you can't yell loud enough
Sometimes a whisper's just too much
My ears are burning my ears are burning up

Who are? What you do?
What you need? Whats the use?
Hold me now
I can't help but want you too
I can't help but want you too
I can't help but want you too

Don't say you don't miss me that much
(Don't ya)
Don't say I don't still make you blush
(Don't ya)
Cuz my ears are burning my ears are burning up
(Don't ya)
Sometimes you can't yell loud enough
(Don't ya)
Sometimes a whispers too much
(Don't ya)

My ears are burning my ears are burning up
Don't say you don't miss me that much
Don't say I don't still make you blush
Cuz my ears are burning my ears are burning up
Sometimes you can't yell loud enough
Sometimes a whispers just too much
My ears are burning my ears are burning up
