## Who Will Take My Dreams Away

## **Marianne Faithfull**

I can't give you all my dreams Nor the life I live. You and I won't friendship miss, That's all we got to give.

Who will take your dreams away Takes your soul another day. What can never be lost is gone, It's stolen in a way.

Please, don't stand too close to me, Can you hear my heart ? Take my woe and lean on me When we're not apart.

Now our mission is complete And our friends are hid. Evil things brought down by the light, Life goes on until the end.
