

Why Did We Have To Part

Marianne Faithfull

why did we have to part my love?
why couldn't life just stay the same?
it was over and i didn't know it
living without you feels so strange

i remember the night when we met each other
it was a very long time ago
we both have changed for the better
we are so much kinder now, i know

why did we have to part my love?
why couldn't life just stay the same?
it was over and i didn't know it
living without you feels so strange

the night you said you loved another
i simply could not take it in
what would i do without your love?
so cold and lonely it became

why did we have to part my love?
why couldn't life just stay the same?
it was over and i didn't know it
living without you feels so strange

we are very good friends, my love
we have passed the wall of hate
but you know
i'll never come back again

why did we have to part my love?
why couldn't life just stay the same?
it was over and i didn't know it
living without you feels so strange

why did we have to part my love?
why couldn't life just stay the same?
it was over and i didn't know it
living without you feels so strange

why did we have to part my love?
why couldn't life just stay the same?
it was over and i didn't know it
living without you feels so strange
