

Falling For You

Marié Digby

Never thought that I would find
A love that is one of a kind
You're exceptional, so original, divine
Yeah

I see happy days ahead
Done with all the tears I've shed
Everyday with you
I always find out something new

You came at the right time
I hope that you won't mind
If I think I'm falling for you

Spending everyday and wish
Never felt it quite like this
I see something more
I hope you'd catch me if I fall

Being with you such a thrill
It's overwhelming what I feel
Could it really be
I found the who's right for me

I've waited a lifetime
I hope that you won't mind
If I think I'm falling for you

I see all the signs around us
Gotta admit they pointing at you
I hope that you don't mind
Think I'm falling for you, yeah-yeah

There's nothing that stands between us
We both fall in love, that's true
I hope that you won't mind
I hope that you don't mind
If I think I'm falling for you

You came at the right time
I hope that you won't mind
If I think I'm falling for you

I've waited a lifetime
I hope that you won't mind
If I think I'm falling for you
