

# Love With A Stranger

Marié Digby

You close the doors  
When you're with me, slowly  
Lay down next to me  
Just the alight of our fate

This was not part of the plan  
I was just on my way  
You make me comfortable

This is love with a stranger  
Just the touch is enough  
I let go with a stranger  
Just to see you, just to feel

No questions, please don't ask  
Please don't worry 'bout the past  
This is love with a stranger  
When I walk out the door  
You won't see me no more  
This is love with a stranger

I drifted away  
Lost myself  
With the current  
Let my eyelids feel heavy  
Hypnotized by our heart beat

This was not part of the plan  
I was just on my way  
You make me comfortable

This is love with a stranger  
Just the touch is enough  
I let go with a stranger  
Just to see you, just to feel

No questions, please don't ask  
Please don't worry 'bout the past  
This is love with a stranger  
When I walk out the door  
You won't see me no more  
This is love with a stranger

I barely even know your name  
Be easy, let's keep it simple  
Just enjoy the moment, baby  
Relax and close your eyes  
When you wake up in the morning light  
Don't act like you're surprised  
I'll disappear into the night  
I'll vanish like a ghost  
ooh

This is love with a stranger  
Just the touch is enough  
I let go with a stranger  
Just to see, just to feel

This is this is love, love with a stranger  
This is this is love, love with a stranger  
This is this is love, love with a stranger  
This is this is love, love with a stranger
