

All About You

Marie Fredriksson

Love to know all about you
Oh baby, all about you

Livin' on my own
I always felt so strong
I listened to my heart
But only in that song, you know

I was afraid I didn't know myself
I wasn't me till I met you

Love to know all about you
Oh baby, all about you
And I want you to know all about me

Love to know all about you
Oh baby, all about you
All about you

How could this be for real
Is life something you feel
Oh, so many days I spent
Not knowing time was heaven sent

I never thought that life is a miracle
Now I know what's meant to be

Love to know all about you
Oh baby, all about you
And I want you to know all about me

Love to know all about you
Oh baby, all about you
All about you and me

In times of loneliness
I've been tasting fear of losing you
But my heart is strong and I'm no fool
I will always love you, I will always

Love to know all about you
Oh baby, all about you
And I want you to know all about me

Love to know all about you
Oh baby, all about you
All about you

Love to know all about you
Oh baby, all about you
And I want you to know all about me

Love to know all about you
Oh baby, all about you
All about you
