

# All You've Gotta Do Is Feel

Marie Fredriksson

All you've gotta do is feel right now  
When tomorrow comes for real  
All you've gotta do is feel

All you've gotta do is feel  
Maybe you can save the world  
If your heart's gonna heal  
All you've gotta do is feel

We can live our lives  
So we can live them together  
A happy for a while or happy forever

Give me all your trust  
And you will get something better  
You're gonna be the star of the show

All you've gotta do is feel right now  
When tomorrow comes for real  
All you've gotta do is feel

All you've gotta do is feel  
Maybe you can save the world  
If your heart's gonna heal  
All you've gotta do is feel

If you won't be afraid  
Then you will live forever  
Get a piece of a cake  
So much bigger and better

You can be so much real  
Good vibrations are better  
No matter if you're high or low  
Dressed in cred wherever you go

All you've gotta do is feel, right now  
When tomorrow comes for real  
All you've gotta do is feel

All you've gotta do is feel  
Maybe you can save the world  
If your heart's gonna heal  
All you've gotta do is feel

I'll take away and I'll see

All you've gotta do is feel right now  
When tomorrow comes for real  
All you've gotta do is feel

All you've gotta do is feel  
All you've gotta do is feel  
All you've gotta do is feel
